Love,

It's been a lot  
of fun getting to  
know you, because  
last year, I just knew  
that you were a good  
kid, but  
that way.

Janet,  
You're a real nice  
girl and we enjoyed  
having you in class.  
I hope to see you again  
next year. The bad part  
of you is that you talk  
too much. (not really)

Mr. Alfred E. Dakin came to Ontario High School this year as our new Principal. He was previously the Vice-Principal at Montclair High School and has been with the Chaffey District for eighteen years. Mr. Dakin says he feels the tremendous spirit at O H S. is mirrored in the fine relationships among students, faculty, and administration.

This past year we have been privileged to have with us Dagmar Kresse from West Germany. She has lived at the home of Mr. and Mrs. Charles E. Sanchez, and Sharon and Karen have been her American sisters. A member of the Class of 1972, Daggi has participated in many activities on campus besides taking a full schedule of classes. She belongs to the Girls' Athletic Association, Z Club, and California Scholarship Federation. She was a member of Drill Team and was elected as Band and Drill Team Queen. It's been wonderful having you here, Daggi, and we hope our next exchange student will be as great as you are!

Dagmar Kresse  
Band and Drill Team Queen

Dagmar Kresse, the 1971-72 foreign exchange student at Ontario High School, was selected as Band and Drill Team Queen for 1971-72. Being crowned as Band and Drill Team Queen will be one of the many high points in Daggie's stay in America.

Daggie resides in the home of the Sanchez family. Neumunster, Germany, is Daggie's home town, and after spending the summer in California, she will return to Neumunster.

Through all the dreams we've dreamed,  
Through all the thoughts we've thought,  
Through all the errors we've damaged,  
There still remain these thoughts:

"As a while instead of a portion,  
We have all expressed our devotion,  
We have been successful,  
Where others have been defeated.

For some, this is a time of joy,  
For others, a time for sentiment,  
However, it is now time for us,  
To take our individual positions in life,  
In a world, which will soon be ours."  
May God Bless us all.

Assistant Coach  
Dan Sweeney

It is not possible to produce a winning team unless that team is coached by a winning coaching staff, and that is exactly why the Varsity Football Teams at OHS have been so successful since the opening of our school 5 years ago. The pride, determination, and good sportsmanship which the team members possess has been instilled in them by these outstanding men

Head Coach  
Douglas Brooks

# ELDERLY PEOPLE

## ACADEMICS

# A R T

The art department endeavors to make its program appropriate to the student of high school level. Student readiness and ability varies somewhat from year to year, so that certain more ambitious projects may be assigned to or dropped from the curriculum as the need varies. However, a well-rounded curriculum is planned so that all general goals have the potential of being reached.

# B U S I N E S S

Ontario High School is striving to update and revise its curriculum offerings so that each student might obtain the maximum benefit, whether his aspirations lie in further formal education or in entry level employment. The Business Department is devoted to helping the student achieve his or her own goal.

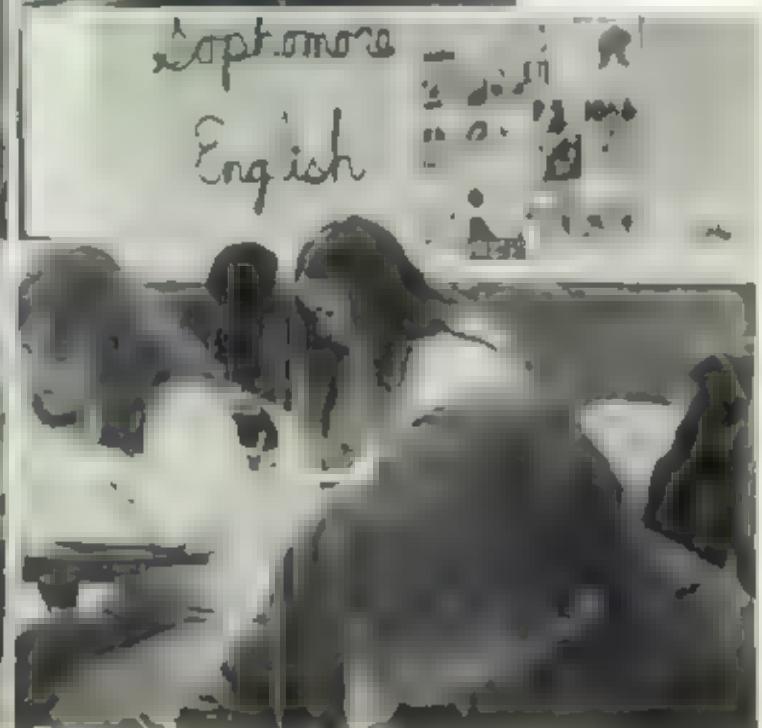

# D R I V E R S

The goal of Driver Education and training is to direct instruction so that students become safer drivers as well as safer pedestrians. We endeavor to do this by developing knowledge of the provisions in the Vehicle Codes and other laws of the State relating to the operation of motor vehicles. We also strive to promote the type of instruction which has as its purpose the development of knowledge, attitudes, habits and skills necessary for the safe operation of motor vehicles.

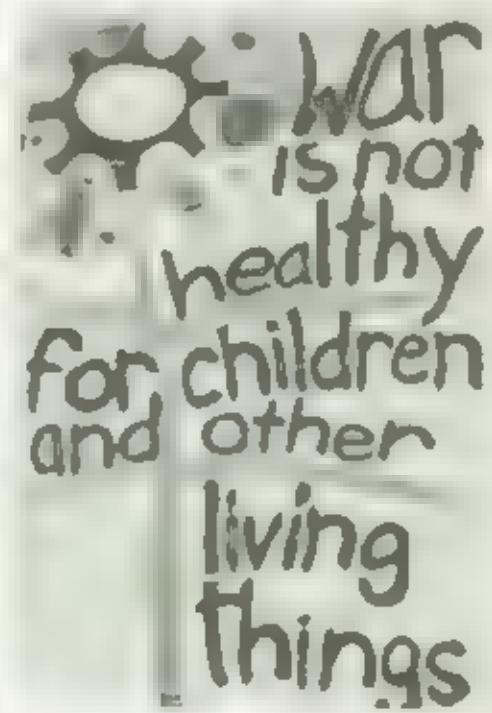

# E N G L I S H

## H I S T O R Y

The history department's goal is to instill a sense of pride in one's heritage and to help students understand themselves and others better. Through the various history courses available we hope the students will be made more aware of the problems facing the world each day and that each student will learn from mistakes made in the past by our ancestors.

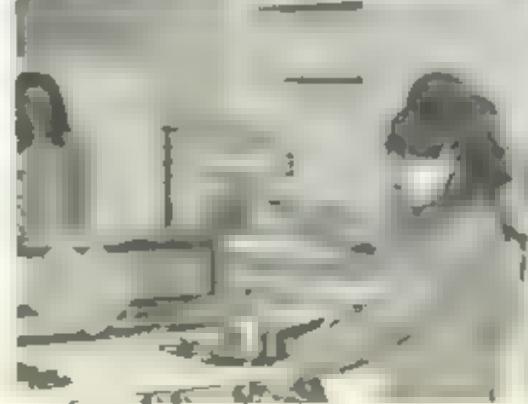

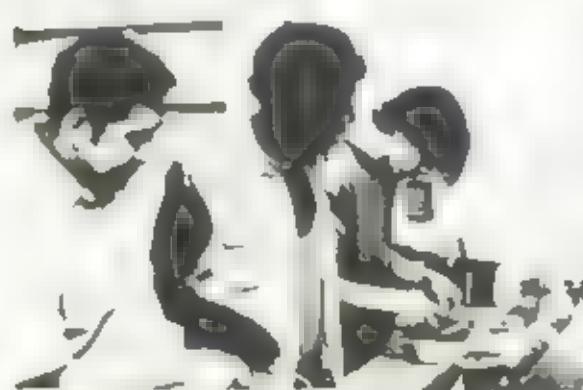

## H O M E E

One of the home-making program tries to help all students male and female of every type and interest level. Home-making education should make living at home a little easier, happier and more efficient. It stresses consumer education, personality development, cleanliness and organization, and nutrition as well as the conventional cooking and canning classes. We also offer a vocational program in Food Services and Nursery Care. This enables students to gain experience in these fields.

## E C O N O M I C S

# I N D U S T R I A L A R T S

The Industrial Arts Department provides background training for future engineers and technicians, vocational training for those who will look for jobs upon graduation and an opportunity for others to do some craft work or shop work just to satisfy their own interest or curiosity.

Mr. Papsdorf

Ontario High has a French, Spanish as well as an English program for foreign students. We also have a Spanish program just for Spanish speaking students, since a high percentage of the students are of Mexican heritage.

The purpose of the French, Spanish and English programs are to stimulate interest in a foreign language and to give students some comprehension of how a foreign language operates. We feel that our entire program helps to prepare students for life in a world which is becoming increasingly conscious of foreign language.

Mr. Pace

# M A T H E M A T I C S

The Mathematics Department has two main objectives to bind its students: to provide in the areas which will enable them to function competently in society, and to offer a variety of courses that will prepare the students to enter in mathematics, science, and engineering college and university.

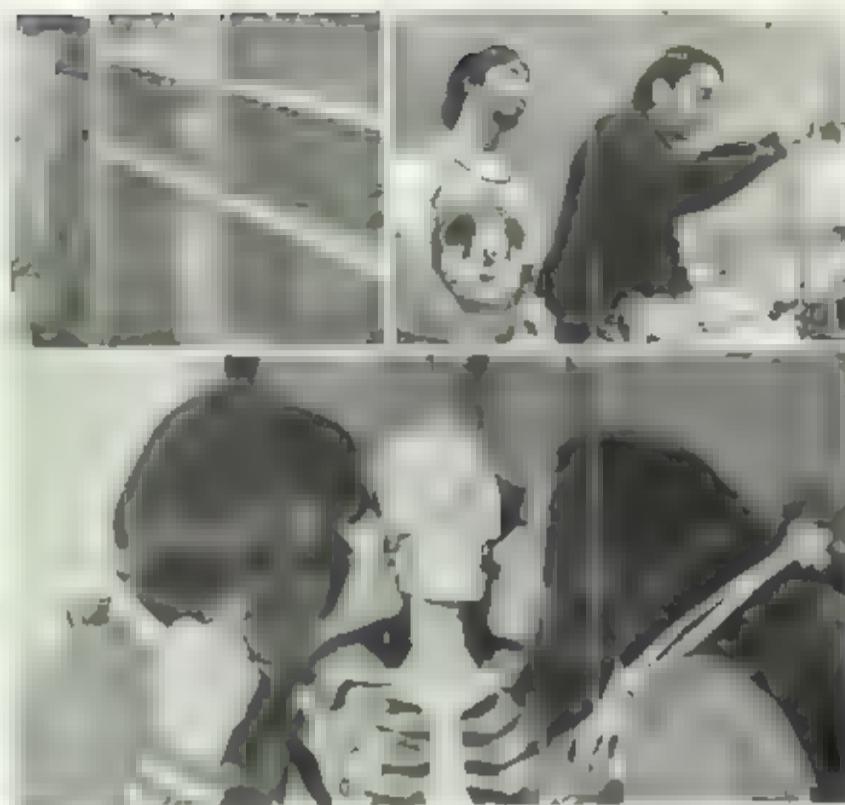

# M U S I C

The music department tries to offer a wide variety of courses to the students. Instrumental students may choose from Orchestra, Beginning Band, Intermediate Band, Marching and Concert Band and Stage Band. The vocal music division consists of Girls' Chorus, A Cappella Choir and Girls' Ensemble.

# SCIENCE

The Science Department is working toward the kind of program that will provide encouragement and incentive for each and every student who participates. It is greatly concerned that students in science and technology and arts are developing as students so that they will be moved toward attainment of the goals each student sets for himself, whether he chooses to continue his former academic studies or not.

Mr. Petersen

# SPECIAL EDUCATION

The Special Education Department is going to bring each student a awareness of his potential and make steps to help him to develop this potential. When the student takes his rightful place in society then we will have achieved our main goal to help to build well-equipped individuals.

Mr. Mandelker

# E.S.E.A AIDS AT ONTARIO HIGH

E.S.E.A aides from LEFT TO RIGHT: Vicki Lee, Sharon K. Patrick, Rose Bernstein, Audrey Lewis, Margaret DelaTorre, Jose DelaTorre, Spain Markly, Alice Gonzalez, Martha Espinoza, Flora Ayala, Rose Guerra, Dee Cole, Manuel Bocanegra

"You learn more when you work with people you know and like." This fact provided the basis for the "Care and Share" project at Ontario High School during the 71-72 school year. The program was supported by our teacher aides. They not only helped individual students with subject matter problems, but also helped with the clerical work required for group grading and group awards. In many subtle ways they made sure that no student was "left" out and that each student's choice of working partners was given full weight. They were helped in their endeavors by a giant computer at the Institute of Educational Computing of the near by Claremont Colleges. It performed the difficult task of forming cohesive groups from student choices.

It is much as new choices of working partners were made every few weeks, many Ontario students found their circle of friends growing larger and larger.

Leadership ability and talent often begin to flourish where it was not suspected. The biggest benefit to most students, however, came from the realization that the group they worked with really liked and admired them. Teacher aides, many of whom were completing their second year with the project, were sensitive to the "need of belong" that everyone has. They gained the deep respect of both students and faculty.

its Janet  
been nice with
